### ***Newly Enhanced - Yard & Delivery Managers Workshop***

David Wells, LBM Operations Consultant and Industrial Architect will be joining Ken Wilbanks for the newly enhanced Yard & Delivery workshop. We've added more focus on interpersonal skills to improve your potency as a leader and new innovative best practices for effective yard and warehouse layouts.

The tried and true Yard & Delivery Managers Workshop has been enhanced as never before!

**January 17-18**  
**Day 1: 9:00 am – 5:00 pm**  
**Day 2: 9:00 am - 4:00 pm**  
**Jefferson City, MO**

For the highest level of success to be achieved by these essential teams, they must be energetically led by effective managers through a set of rock-solid core best practices and standards that really work. The Yard & Delivery Managers Workshop devotes two dynamic days to understanding these essential best practices and providing powerful proven tools to insure stellar performance within each separate yet interrelated area of yard and delivery operations.

### Tour Hosted by Scruggs Lumber

*"This is my opportunity to reset and reflect. The workshop provided ideas and motivation to address opportunities" - Ted*

---

## Blueprint Reading & Material Take-Off

**February 12-13 - Fayetteville, AR**

**February 15-16 - Kansas City, MO**

*"...showing the floorplan and elevation and then the photos made it easy to visualize. The program was great!" - Evan*

During this two-day program, instructor Casey Voorhees teaches basic blueprint reading by identifying lines, symbols, and details. Attendees develop an understanding of elevations, floor plans, framing and sectional views. They will be introduced to various residential construction methods and estimating formulas while working on a basic single level home with a trussed roof.

---

Based on their skill level, attendees choose between Day 1 & 2, Day 2 & 3 or ALL three days.

- Day 1: Introduction to Residential Construction & Blueprint Reading
- Day 2: Basic Residential Material Take-off
- Day 3: Advanced Residential Material Take-off

Attendees walk away understanding basic blueprint reading and various residential construction methods along with estimating formulas. This class walks through a take-off of a basic single level home with a trussed roof. Day 3 moves into the more advanced areas of a material take-off including irregular layouts, doors, windows, and millwork.
